Mr. Robert C. Mairano
Treasurer
The Connecticut Brain Tumor Alliance
Post Office Box 370514
West Hartford, CT 06137

Dear Mr. Mairano:

I would like to extend my deep gratitude to you and the Board of Directors at the Connecticut Brain Tumor Alliance for the generous \$10,000 donation to Connecticut Children's Medical Center. With your support, we are able to invest in advanced technology that will improve the efficiency and quality of the care we provide to children with brain tumors. I personally look forward to the positive impact that the infusion chair, widescreen monitors and various other items will have on our out-patient clinic.

Your partnership with Connecticut Children's and specifically with the Division of Hematology and Oncology is a valuable asset in the continuation and development of offering exceptional care to the children and families in Connecticut and the surrounding regions. It has been a pleasure to collaborate with you to identify the Division's greatest areas of need.

Partnering with the community is the only way we can provide great care and services to the children of Connecticut. We are excited and thankful to have the Connecticut Brain Tumor Alliance as a vital ally in our important mission.

Sincerely,

J Nathan Hagstrom, MD
Associate Professor and Head, Division of Pediatric Hematology/Oncology
Connecticut Children's Medical Center

Mr. Ronald C. Mairano
Treasurer
The Connecticut Brain Tumor Alliance
Post Office Box 370514
West Hartford, CT 06137

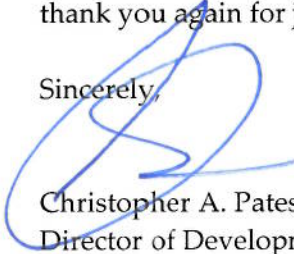

Dear Mr. Mairano:

I write to thank you and the entire Board of Directors of the Connecticut Brain Tumor Alliance for the very generous \$10,000 donation to Connecticut Children's Medical Center. Your meaningful support will make it possible for our Division of Hematology and Oncology to purchase a new infusion chair, widescreen monitors and other items such as the flip video and laptop computer for use in our out-patient clinic. We are truly grateful for these new items, which will help to enhance our efforts to provide exceptional care and treatment to children and adolescents with brain tumors.

I had the pleasure on June 8th of meeting Terry Gamer, Susan Lemkuil and Jennifer Pace. In addition to touring our physical spaces in Hematology and Oncology, we also discussed creating a plaque that would recognize the generosity of the Connecticut Brain Tumor Alliance. I look forward to working with Andy Pace to coordinate a date and time for a ceremonial check photo presentation as well as with regard to the specific wording and location for the plaque.

For now, please know that our continued efforts to give children the care they deserve are made possible through the generous support of the Connecticut Brain Tumor Alliance. On behalf of the children and families who will ultimately benefit from your generosity, I thank you again for joining with us in this special way.

Sincerely,

Christopher A. Pates
Director of Development
